

CUBIQ SERIE

CUBIQ SERIE

INNOVATION AND STYLE IN EVERY CUP OF COFFEE

La Rocca has taken a bold step into the future of coffee-making with its latest creation: Cubiq. This innovative coffee machine combines the reliability and proven technology of its Venezia model with cutting-edge aesthetics that redefine elegance in the world of coffee.

Cubiq is the perfect blend of form and function, a design masterpiece that elevates the coffee experience to a whole new level. Available in three exceptional materials—wood, Krion, and plastic—Cubiq seamlessly and gracefully fits into any setting. From the warm and welcoming wood that adds a rustic, organic touch, to the futuristic Krion that dazzles with its sleek, minimalist appearance, and the versatile plastic suited for a modern, dynamic style, Cubiq allows café owners to express their own identity and creativity.

MATERIALS

HDPE

The HDPE (High-Density Polyethylene) version of Cubiq doesn't skimp on style either. This versatile material is available in a variety of vibrant colors and is designed with a focus on sustainability. Moreover, its ergonomic design and advanced functionality ensure that the quality of the coffee is not compromised in the slightest.

PHENOLIC MATERIAL

Discover the versatility and durability of phenolic material, the perfect option to customize your Cubiq coffee machine. This material combines strength and style, offering a surface that adapts to your aesthetic and functional preferences. You'll be able to create a unique coffee machine that reflects your personality and integrates harmoniously into any environment.

KRION

The krion version, with its sleek and minimalist surface, integrates perfectly into the most modern and cutting-edge spaces. Its pristine appearance and clean design make Cubiq a focal point of contemporary beauty in your establishment, attracting attention and praise.
